Announcements:

Forecast of Approved Proposals (For Your Information)

- **Exemption for the BS in Culinary, Sustainability, and Hospitality revision**
Justification: KSU's degree programs must align with the institution's mission, per SACS-COC, and any significant shifts must be addressed sufficiently.
- **Exemption for the BS in Psychology revision**
Justification: The revision addresses bottlenecks in the degree program, thus facilitating student success.
- **Exemption for 8 GA Film Academy Courses**
Justification: If the courses are not offered by the English department, students who have already taken some of the courses (when offered in TPS) will not be able to complete the system-wide GFA Production Certificate. There is a strong demand for employees with this skill set in GA, and students from many KSU majors pursue the certificate.
- **Exemption for the BA in African and African Diaspora/Black Studies and the BA in Asian Studies**
Justification: The revision is to address bottlenecks for both of these degree programs, thus facilitating student success.
- **Exemption for the BS in Integrative Studies- General Education track**
Justification: The revision meets the exception criteria of addressing accreditation issues, since this proposal clarifies and formalizes in the KSU catalog and degreeworks what courses substitute for the major requirement courses.
