

**Program Information**

<b>College:</b>	College of Computing and Software Engineering
<b>Department:</b>	Information Technology – Undergraduate
<b>Program:</b>	Information Technology, BSIT

**Program Student Learning Outcomes**

Upon completion of this degree from KSU, students will be able to:

1. Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline
6. Identify and analyze user needs and to take them into account in the selection, creation, integration, evaluation, and administration of computing-based systems.
