

Program Information

College:	College of Science and Mathematics
Department:	Mathematics – Undergraduate
Program:	Mathematics, Minor

Program Student Learning Outcomes

Upon completion of this degree from KSU, students will be able to:

1. Demonstrate practical fluency in Calculus and Linear Algebra.
2. Communicate mathematical ideas using proper mathematical language and notation.
3. Demonstrate mathematical modeling and problem-solving strategies from self-selected field of mathematics, including applied mathematics or more theoretical areas of mathematics.
