College:	WellStar College of Health and Human Services
Department:	Health Promotion and Physical Education – Undergraduate
Program:	Public Health, Minor

Program Student Learning Outcomes

Upon completion of this degree from KSU, candidates will be able to:

1. Analyze the social, behavioral, environmental, ethical and multicultural determinants of health status that contribute to health disparities.
2. Explore skills required to promote population health and prevent disease.
3. Analyze public health data to provide evidence-informed interventions or research products.
4. Collaborate with other health professionals to improve the health status of priority populations.
5. Evaluate health information to ensure it is evidence-based and current.
